

# Elements of the New Economy: Green Chemistry in the Pacific Northwest

**A Meeting for Funders**  
March 8 & 9, 2010  
The Edgewater, Seattle, WA

## You're Invited

Please join us for a special briefing to explore Green Chemistry and its current and future contributions to the Pacific Northwest's economy.

More Information and Free Registration at:  
[www.GreenChemPNW.org](http://www.GreenChemPNW.org)

## *What would the Pacific Northwest economy look like if designed by Green Chemists?*

Join us for a day of in-depth discussions that will:

- ◆ Provide a "Green Chemistry 101" and examine Green Chemistry education and capacity building in the PNW.
- ◆ Look at PNW companies who are building their products and brand around Green Chemistry applications.
- ◆ Explore the role that PNW government, non-government organizations, and funders play in advancing green chemistry.

## Speakers include:

**John Fraizer**, Nike Inc.

**Jim Hutchison**, Oregon Nanomanufacturing and Microtechnologies Initiative; U of Oregon Chemistry Professor

**Roger McFadden**, Corporate Express, a Staples Company

**Colin Price**, Oregon Environmental Council

**Tom Osdoba**, University of Oregon College of Business

**Lauren Heine**, Clean Production Action

**Pete Myers**, Environmental Health Sciences

**Karen O'Brien**, Advancing Green Chemistry

**Ken Zarker**, WA Department of Ecology

**Julie Haack**, Green Products Design Network

**Carol Higginbotham**, Central Oregon Community College

## Organized and Sponsored by:

*The Bullitt Foundation*

*Kendeda Fund*

*Marisla Foundation*

*Health and Environmental Funders Network*

*Advancing Green Chemistry*

*Environmental Health Sciences*

Register by **Feb. 12, 2010** and receive a copy of *Chasing Molecules: Poisonous Products, Human Health and the Promise of Green Chemistry.*
